

Apostle Islands Sea Kayaking & Camping

The Northwest Passage - 800.732.7328 - www.nwpassage.com

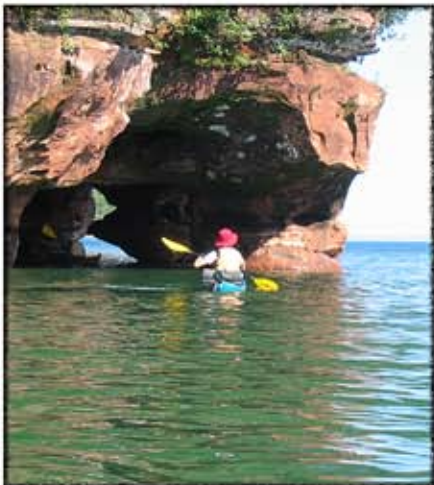

Set in a matrix of Lake Superior, the largest and most pristine of the Great Lakes, the Apostle Islands archipelago includes 22 islands and is located in far northwestern Wisconsin, off the Bayfield Peninsula. Twenty-one of these islands, and a 12-mile segment along the shore of Wisconsin's north coast, comprise the Apostle Islands National Lakeshore. The beauty of the islands are enhanced by the area's geology. The varied and beautiful islands invite paddlers to explore their historic light houses, sandy beaches, sea caves and extraordinary rock formations. We meet on the first afternoon for a brief sea kayaking course, reviewing paddling and safety basics including wet-exits and open water rescue techniques. Our first night will be spent in the wonderful town of Bayfield, where we'll enjoy dinner at a local restaurant.

As the morning dawns we will pack up our kayaks and begin our 4-day journey out to the islands, visiting handsome light houses, exploring sea caves, hiking some trails, or cooling off in the crystal clear waters of Lake Superior. Our itinerary may vary from one trip to the next, allowing us to explore different islands. We create a plan that will allow us enough time to visit many scenic spots, do some hiking and recreational paddling, and relax at our campsites. On the final morning of our Apostle Islands adventure we will pack up and return to Bayfield, taking with us a refreshing taste of tranquility and true sense of accomplishment.

Skill Level 2
Moderate - Basic experience with the trip activity is required!

Trip Details

- 5 days, 4 nights
- From Bayfield, Wisconsin
- 2010 Price: \$685.00
