

Belize

Sea Kayaking Adventure

The Northwest Passage - 800.732.7328 - www.nwpassage.com

Considered the least known barrier reef, Belize's 175 mile long barrier reef is the second longest in the world. It stretches the entire length of the country's coast and creates a natural aquarium which holds a dazzling variety of tropical marine life. The clear warm water is studded with hundreds of uninhabited islands and cayes. Covered with white coral sand, the cayes are home to little but coconut palms, sea grapes and occasional adventurers.

Day 1: Arrive in Belize City mid-day to catch an in-country flight to Placencia. We'll spend our first night in comfortable cabanas and dine on Belizean cuisine as we get to know our fellow travelers.

Day 2: We'll depart in the morning and head to a local jungle river for a two-day paddle down to the sea. Along the way we'll enjoy the abundant variety of life in the jungle and become familiar with this very unique ecosystem.

Day 3: We continue our journey to the sea meeting our support vessel for a shuttle out to the cayes. We'll camp on the cayes just inside the barrier reef enjoying freshly caught seafood for dinner.

Day 4-6: We combine paddling in our kayaks with plenty of opportunities for snorkeling, fishing and simply relaxing. With warm waters lapping at our shores and the world's second longest barrier reef yards away the opportunities are plentiful! Throughout our time on the cayes we are accompanied by a support boat.

Day 7: We pack up and bid farewell to the beauty of the cayes to return to the mainland and spend our final night in Placencia. We celebrate the trip over dinner at a local restaurant.

Day 8: We say good-bye to our Belizean guide and travelling companions return to Belize City and catch return flights home.

Trip Details **Skill Level 1: No Experience Necessary**

- 8 days, 7 nights
- From Placencia - Cabanas, camping
- 2010 Price: \$1995.00
